

December 2012

Rork Projects

You may have already noticed our gradual change from Rork Interiors to Rork Projects. Expansion and development of the Rork brand has led to the creation of a more fitting name for our company - Rork Projects.

It embodies what Rork is about, what services we offer and where we are heading into the future. The new company name ties in with our goals of finalising Federal Safety (FSC) accreditation and delivering, as always, high quality client-focused solutions within the building refurbishment and fitout construction industry.

Our attention to detail and belief that projects can be delivered on time and within budget are top priorities and drive our team to focus on all areas of delivery from our clients to our subcontractors and suppliers.

Welcome Mandy...

Rork is growing! We welcome another addition to our team. Mandy Wells has joined the Rork team as Systems Manager. Mandy has many years' experience in office administration including project and sales administration within the audio visual and hospitality industries. Mandy's key focus is to manage the Integrated Management System and to drive the implementation of WHS systems on site for FSC accreditation. Mandy is the office First Aid Rep and also holds a Certificate IV in OH&S.

Welcome Sara...

With over 20 years in the industry Sara Blackley brings a wide range of skills and contacts to Rork Projects. Her experience as a BDM has involved delivering multiple building upgrades with various projects from \$100k up to \$5 million. Sara maintains a business finesse coupled with a warmth that brings consistent results and exemplary business relationships. Sara is a Green building Council of Australia Accredited Professional.

Merry Christmas and Thank You!

To our valued clients, contractors and suppliers, thank you all for being an integral part of Rork Projects' growth and success in 2012. We wish you and yours health, happiness & prosperity over the holiday season and look forward to seeing you in 2013.
Kindest regards, Brian & Angela O'Rourke

CHILD CARE AND COMMUNITY CENTRE (Small Quinton Coleman Architects)

Rork Projects are on schedule to complete the refurbishment fit out of a heritage building in Giralang. The refurbishment works involved the extension of the existing heritage building including masonry/reinforced concrete/structural steel elements/roof and roof plumbing. Also included in the scope was the upgrade of essential services and reconfiguration of architecturally designed landscaping/playground areas. On schedule and due for completion mid December 2012

MANPOWER, CANBERRA (PM - Andis Consulting)

Rork completed the new Manpower office within the Childers Square building. This office brings the ACT Branch into the latest Manpower corporate image. Manpower is an ongoing client for Rork working in conjunction with Andis Consulting. This relationship is highly valued within the company and we look forward to future projects with Andis Consulting and Manpower in 2013. The project entailed complete construction of the office including design and construct for the mechanical, plumbing and electrical services within the building. The project was completed on time and on budget.

DLA PIPER and CANDLE, KINGSTON (PM - Xact Consulting)

Rork have recently completed the fit out of offices including joinery, ceilings, glazing, partitioning for DLA Piper and Candle at their Kingston offices. Included in the fitout was a complete upgrade of essential services and an Inter-tenancy wall upgrade to security specifications. With all works carried out in occupied space Rork once again showed it's value in Project and Site Management for their client. All parties were very happy with the result .

MCGRATH, CROWS NEST (Alistair Jennings Architects)

Rork's Sydney office recently completed a full interior fitout for the Crows Nest McGrath office. This is the fifth McGrath office fitout for the Rork team and the client was extremely happy with the result. The scope included demolition, carpentry & joinery works, electrical, hydraulic, mechanical, fire (services), floor coverings, painting and installation of loose furniture . It's another example of Rork's commitment to both our client and suppliers in delivering a successful, high-end fitout.

In our next issue look out for completed fitouts for SAS, Compuware, University of Canberra Data Centre, Australian Institute of Company Directors...
